

ACCELERATE PROJECTWISE

MAY 8-9, 2019 | SAN DIEGO, CA

Bentley Institute Conference Overview

Learn how to apply the latest best practices and digital innovations that are advancing project delivery at leading EPCs and owner-operators. Attend this two-day conference to learn from Bentley colleagues, your peers, and other industry experts. Return to your job with actionable strategies to accelerate your organization's "Going Digital" strategy for project delivery.

Who Should Attend

Project Leaders including BIM, engineering, architecture, and design project managers, as well as line-of-business owners, will benefit from an entire track focused on fully leveraging their organization's ProjectWise investment to **reduce the cost, schedule, and risk of design projects.**

Technology Leaders including IT directors and managers, as well as ProjectWise administrators, will benefit from a separate track devoted to best practices and strategies to help project teams get more benefit from ProjectWise.

DAY 1 | Wednesday, May 8, 2019

Registration and Breakfast

All Tracks <i>Penny Lane Foyer</i>	7:00 a.m. - 5:00 p.m.	Registration and Information Desk Open
All Tracks <i>Legends Ballroom 1-4</i>	7:30 a.m. - 8:30 a.m.	Breakfast

Keynotes

All Tracks <i>Legends Ballroom 1-4</i>	8:30 a.m. - 9:00 a.m.	Keynote: ProjectWise to the Max – Reducing the Stress and Risk with Successful Project Delivery Are you taking full advantage of ProjectWise? Bentley continues to advance ProjectWise to address the changing needs of your project teams and enterprise. Hear about the latest capabilities and what is coming.	Nicole Stephano Vice President Product Strategy, Bentley Systems
All Tracks <i>Legends Ballroom 1-4</i>	9:00 a.m. - 9:30 a.m.	Keynote: Going Digital in Infrastructure: Understanding the Challenges of Delivering, Managing, and Operating Built Environment Assets in an Environment of Continuous, Data-driven Disruption Digital technology and data analytics are disrupting the delivery of capital projects, as well as the operation and maintenance of assets on an unprecedented scale. A new norm is emerging of continuous change in the thinking, capabilities, and skills required to deliver better project outcomes and increased asset value. Companies that will lead this new future must redefine their organizations now to take advantage of these new opportunities. This session will draw on the findings of McKinsey's recent work to understand the challenges facing the modern infrastructure sector as it navigates this new digital world and attempts to turn around a decades-long record of underperforming productivity. It will provide delegates with the latest strategic thinking delivered by a globally acknowledged expert in the field.	T.G. Jayanth Expert - Capitial Projects, McKinsey & Co.

Morning Break

All Tracks <i>Imagine</i>	9:30 a.m. - 10:00 a.m.	Morning Break
------------------------------	------------------------	---------------

Session Block 1.1

Project Leadership <i>Legends Ballroom 5</i>	10:00 a.m. - 10:50 a.m.	Enable Proactive Management of Design Work-in-Progress with Project Insights Dashboards Learn how near real-time project performance analytics from ProjectWise enable you to leverage big data from your projects into more timely and informed decisions that improve project outcomes and firm performance.	Rimantas Varanavicius Director, Product Management, Bentley Systems
IT Leadership <i>Legends Ballroom 6</i>	10:00 a.m. - 10:50 a.m.	Best Practices: ProjectWise Administration and PowerShell Overview and Use Cases Learn with real-world examples and techniques on how you can leverage ProjectWise and PowerShell for automation, consistent changes, reporting, and streamlining your workflows. Improve the support you provide to project teams while reducing the complexity of your administration work by learning the latest best practices from Bentley's ProjectWise experts.	Marty Nickel Senior Systems Architect, Bentley Systems
Project Leadership <i>Legends Ballroom 5</i>	11:00 a.m. - 11:50 a.m.	Save Time and Reduce Risk with Digital Workflows for Multidiscipline Design Coordination See how the latest ProjectWise cloud services extend digital collaboration across your multidiscipline project teams, automating design coordination and approval workflows to save time, eliminate risk, and increase quality. Whether from a model, a drawing, or from a mobile device input, leverage the services needed to speed up your business processes.	Sam Stuart Senior Product Manager, Bentley Systems
IT Leadership <i>Legends Ballroom 6</i>	11:00 a.m. - 11:50 a.m.	Best Practices: Managing Your MicroStation WorkSpaces in ProjectWise Learn how to promote greater design consistency, quality, and standards compliance by leveraging ProjectWise to manage and distribute approved WorkSpaces for Bentley applications. Explore key areas such as new managed Workspace formula, WorkSet Design, and Optimization.	Adrian Crowfoot Senior Consultant, Bentley Systems

ACCELERATE PROJECTWISE

MAY 8-9, 2019 | SAN DIEGO, CA

DAY 1 | Wednesday, May 8, 2019 ...continued

Lunch

All Tracks <i>Legends Ballroom 1-4</i>	12:00 p.m. - 1:00 p.m.	Networking Luncheon
---	------------------------	---------------------

Session Block 1.2

Project Leadership <i>Legends Ballroom 5</i>	1:00 p.m. - 1:50 p.m.	Unlocking Digital Asset Lifecycle Value with a 100% BIM Strategy Enabled by ProjectWise Learn the what, why, and how around the 100% BIM corporate initiative at Arcadis. Explore example projects and outcomes that show real value delivered to clients, and key takeaways you can apply at your organization.	Clay Starr Director of Engineering, Arcadis
IT Leadership <i>Legends Ballroom 6</i>	1:00 p.m. - 1:50 p.m.	Enable Proactive Design Workflows: Getting Started with Project Insights Dashboards See how to get the newest ProjectWise cloud service configured and activated to begin delivering real-time performance analytics on progress, status, and trends on the engineering and design effort. Learn how to help your project teams exploit the dashboards to enable more timely and informed decisions, more visibility into projects, and identify potential issues so that they can be mitigated before impacting project performance.	Rimantas Varanavicius Director, Product Management, Bentley Systems
Project Leadership <i>Legends Ballroom 5</i>	2:00 p.m. - 2:50 p.m.	Increase Productivity by Establishing Digital Collaboration Across Project Participants Outside the Design Team Discover how ProjectWise Design Integration, ProjectWise cloud services and integration with the Microsoft 365 environment can increase the speed and quality of collaboration, including project participants outside of the design effort or your organization. See a real-world example of leveraging ProjectWise to speed workflows across sponsors, project leaders and managers, business process owners, and consultants.	Bill DiGregorio Director, ProjectWise Global Services, Bentley Systems
IT Leadership <i>Legends Ballroom 6</i>	2:00 p.m. - 2:50 p.m.	Secrets of Renditions – Save time automating iCS for PDF Setup Learn from HNTB how it utilizes PowerShell to quickly setup iCS for PDFs tailored for projects, reducing setup time and manual processes. Not an InterPlot user and thought automated PDF creation with iCS wouldn't work for you? Learn how to leverage printer configuration settings and pen tables with iCS for PDF specific settings to enable your organization to reduce the time that was required for manually creating PDF deliverables.	Kevin Van Haaren ProjectWise Administrator, HNTB

Afternoon Break

All Tracks <i>Imagine</i>	3:00 p.m. - 3:20 p.m.	Afternoon Break
------------------------------	-----------------------	-----------------

Session Block 1.3

Project Leadership <i>Legends Ballroom 5</i>	3:20 p.m. - 4:10 p.m.	Successes and Lessons Learned with ProjectWise on a Multi-million Dollar Project See firsthand special insights from an expert into the benefits and challenges experienced when working with a project team within ProjectWise. Learn behind the scenes takeaways from a project involving software standardization and deployment, CAD standards from the client, project setup, cloud services, and working with legacy systems.	Kirk Peterson Senior Application Technologies, Stantec
IT Leadership <i>Legends Ballroom 6</i>	3:20 p.m. - 4:10 p.m.	Accelerate Design Reviews: Getting Started with Work Rules Engine and ProjectWise 365 Services Discover how to help save time on projects by combining the automated workflows and cloud services in ProjectWise to speed design reviews and other laborious tasks. See a specific example on how to configure a review and approval workflow to save time, mitigate risk, and increase quality.	Bill DiGregorio Director, ProjectWise Global Services, Bentley Systems
Project Leadership <i>Legends Ballroom 5</i>	4:20 p.m. - 5:10 p.m.	Microsoft Azure – Accelerate Your Success Gain greater reliability, security, and performance by utilizing Microsoft's Azure platform to better manage, create, and deploy applications and services.	Randy Holloway Intelligent Cloud Leader Mack Ratcliffe Technology Architect Microsoft
IT Leadership <i>Legends Ballroom 6</i>	4:20 p.m. - 5:10 p.m.	Advance Project Collaboration: Getting Started with Share and Microsoft 365 Integration See how to configure, activate, and combine ProjectWise Share, Microsoft Teams, and ProjectWise Flow connectors to connect project participants inside and outside of the design effort.	Audrius Pundzevicius Product Manager, Bentley Systems

Networking Reception

All Tracks <i>Offsite Location</i>	6:00 p.m. - 8:00 p.m.	Networking Reception – The Smoking Gun 555 Market St, San Diego, CA 92101. Heavy hors d'oeuvres and drinks provided.
---------------------------------------	-----------------------	--

DAY 2 | Thursday, May 9, 2019

Registration and Breakfast

All Tracks <i>Penny Lane Foyer</i>	7:00 a.m. - 4:00 p.m.	Registration and Information Desk Open	
All Tracks <i>Legends Ballroom 1-4</i>	7:00 a.m. - 8:00 a.m.	Breakfast	

Keynotes

All Tracks <i>Legends Ballroom 1-4</i>	8:00 a.m. - 8:20 a.m.	Keynote: Going Digital – Adapting Project Delivery to the Industry's Challenges and Opportunities Hear insights gathered from a broad survey of project delivery firms and owner-operators in various stages of adapting their digital strategies for a new era in project delivery.	Mark Coates Industry Marketing Director, Project Delivery, Bentley Systems
All Tracks <i>Legends Ballroom 1-4</i>	8:20 a.m. - 8:50 a.m.	Delivering Future Infrastructure: Faster, Smarter and Better As the industry seeks to bridge the global infrastructure gap, the delivery of many critical assets – essential to economic growth and the wellbeing of communities – is still being delayed. All too often, projects encounter massive delays to get off the ground, and then, once started, they run over time and budget. With numerous best-practice examples and exemplary projects, it is clear that the tools and approaches are available to produce a positive transformation in the delivery of major infrastructure projects. The challenge is to kick old habits and outdated ways of working and to build a new industry dynamic. Hear how AECOM is transforming its business through a combination of technology and alternative delivery to design and construct assets faster, smarter, and better.	L. Russell Dalton BIM Director – Americas, AECOM

Session Block 2.1

Project Leadership <i>Legends Ballroom 5</i>	9:00 a.m. - 9:50 a.m.	Save Time and Reduce Risk with Consistent, Secure, and Auditable Transmittals, Submittals, and RFIs Discover how ProjectWise can save time and mitigate risk in your projects by automating, integrating, and codifying the creation, transmission, dispositioning, review, and close out of contractual exchanges.	Brian Glaser Applications Engineer, Bentley Systems
IT Leadership <i>Legends Ballroom 6</i>	9:00 a.m. - 9:50 a.m.	Managing Project Digital Twins with ProjectWise iTwin™ Services are a set of cloud services that enable organizations to create, visualize and analyze digital twins of infrastructure projects and assets. iTwin Services provide web-based and immersive visualization to allow project teams to understand the implications of design decisions early in the project. Existing file-based workflows are bridged through services that transform data from multiple formats into one normalized data model for the purposes of visualization and reporting of change. Learn how to incorporate engineering data, reality data, and other associated data—from diverse design tools and other sources—into a living digital twin, with no disruption to your current tools or processes.	Jo Terri Wright Senior Product Manager, Bentley Systems

Morning Break

All Tracks <i>Imagine</i>	10:00 a.m. - 10:20 a.m.	Morning Break	
------------------------------	-------------------------	---------------	--

Session Block 2.2

Project Leadership <i>Legends Ballroom 5</i>	10:30 a.m. - 11:20 a.m.	Why and How to Move Your ProjectWise Environment to the Azure Cloud Witness how the Microsoft partnership enables you to leverage the security and reliability of the Azure cloud to migrate your ProjectWise implementation to a cloud-hosted environment. Learn about the migration, maintenance, and how this practice can help reduce overall IT costs, provide greater operational agility for project starts, and improve disaster recovery protection.	Eddie Anderson Director, ProjectWise Managed Services, Bentley Systems
IT Leadership <i>Legends Ballroom 6</i>	10:30 a.m. - 11:20 a.m.	Best Practices: Advanced Civil 3D Integration and Workflow See first-hand the workflow, tools, and latest capabilities for integrating the work of Advanced Civil 3D application users to improve multidiscipline design collaboration in your project teams.	Bobby Mullenax Senior Consultant Bentley Systems Brian Glaser Applications Engineer, Bentley Systems

DAY 2 | Thursday, May 9, 2019 ...continued

Project Leadership <i>Legends Ballroom 5</i>	11:30 a.m. - 12:20 p.m.	ProjectWise Scales from Smallest to Largest Projects for Broader, Real-World User Insights We've all heard the largest companies and projects rave about ProjectWise. But what about smaller firms and projects? Archway will discuss some of the advantages that even the smallest of companies and projects can gain by collaborating with the help of ProjectWise, including the scalability of ProjectWise from small companies, to small projects in larger companies and on up to the largest projects. Some examples include JL Patterson (a 120-person rail design firm), Anil Verma (an 80-person rail architectural firm), and WKE (a rapidly growing civil and transportation design firm).	Shannon Schoengerger Consultant, Archway Systems
IT Leadership <i>Legends Ballroom 6</i>	11:30 a.m. - 12:20 p.m.	Best Practices: Advanced Revit Integration and Workflow Get up to speed on the latest capabilities for integrating the work of Revit application users, improving multidiscipline design collaboration in your project teams.	Phil Conard, Bobby Mullenax, and Rob Riley Product Management, Bentley Systems
Lunch			
All Tracks <i>Legends Ballroom 1-4</i>	12:30 p.m. - 1:30 p.m.	Lunch	
Session Block 2.3			
Project Leadership <i>Legends Ballroom 5</i>	1:30 p.m. - 2:20 p.m.	Build Bridges Between Design and Construction with Connected Projects Bridge the gap between design and construction to deliver projects more efficiently through seamless collaboration and a connected data environment. Overcome the challenge of transferring design documents and clearly communicating design intent to the construction team and break down silos around organization structure, poor communication pathways and disparate sources reducing risk and supporting overall project success.	Arnar Agustsson Senior Product Manager, Construction, Bentley Systems
IT Leadership <i>Legends Ballroom 6</i>	1:30 p.m. - 2:20 p.m.	Achieve Consistent, Secure, and Auditable Transmittals, Submittals, and RFIs Discover how ProjectWise can save time and mitigate risk in your projects by automating, integrating, and codifying the creation, transmission, dispositioning, review, and close out of contractual exchanges. See how Deliverables Management fits into the ProjectWise workflow and the resulting benefits.	Adrian Crowfoot Senior Consultant, Bentley Systems
Project Leadership <i>Legends Ballroom 5</i>	2:30 p.m. - 3:20 p.m.	Panel Discussion: How have you been challenging yourself, your organization and your project partners to go digital? A panel discussion to help Bentley clients communicate the successes that they achieved by going digital and share best practices on how they overcame the challenges of going digital.	Moderated by Mark Coates Industry Marketing Director, Project Delivery, Bentley Systems
IT Leadership <i>Legends Ballroom 6</i>	2:30 p.m. - 3:20 p.m.	Best Practices: Transitioning to the Cloud Find out the advantages of transitioning your ProjectWise data sources to the Microsoft Azure Cloud. Get the insights on how to optimize and learn about Bentley's initial and ongoing support through migration and maintenance.	Eddie Anderson Director, ProjectWise Managed Services, Bentley Systems
All Tracks <i>Legends Ballroom 1-4</i>	3:30 p.m. - 4:15 p.m.	ProjectWise Roadmap and Strategy Detailed product management roadmap including new features and planned enhancements for ProjectWise Servers, desktop and web clients, and ProjectWise 365 services.	Product Management Team, Bentley Moderated by Phil Conard Project Delivery, Bentley
All Tracks <i>Legends Ballroom 1-4</i>	4:15 p.m. - 4:30 p.m.	ACCELERATE the Pace of Possible with ProjectWise Learn how to accelerate your two days of learning with expert insights and recommendations on next steps. Advance your organization's project delivery practice by fully leveraging the power of ProjectWise.	Nicole Stephano Vice President Product Strategy, Bentley Systems

Conference Concludes
