You can keep doing what you do now— but why make your life harder than it needs to be?

Learn how you can use ProjectWise to work smarter, not harder, and effortlessly deliver your best results every time.

Cut time searching for information by 25%

CH2M (now Jacobs) used ProjectWise on a major flood risk management project to make it easier to locate information right when they needed it.

Compressed total design time by 50%

AECOM leveraged ProjectWise on a complex state highway project to engage more resources and help them work together more efficiently.

Assembled packages in 33% of the time

One of our ProjectWise clients cut the time to assemble each individual single-transmittal package by an hour, saving hundreds of hours on every new project.

Received 76% first-time client approval on packages

Matt MacDonald used ProjectWise on a large tunnel system project to cut down approval times and rework by working more closely with the client.

Reduced overall design errors by 50%

Xi’an ShaanGu Power Co. cut design errors in half on a CNY 11.4 million compressor unit by using ProjectWise to establish a single source of truth for project content.

Improved information tracking and reporting to external stakeholders

Borneo Highway POP used ProjectWise to track and store information for a major highway project, making it easier to update external stakeholders and show compliancy to standards.

As a design project manager, ProjectWise helps you stay on schedule, deliver designs quickly, and minimize potential risk by improving team collaboration and content management practices across your project.

Here are just six examples of ProjectWise simplifying the delivery of successful projects.
