

Discovery WorkShop: MicroStation

This Virtual Discovery Workshop is part of the CONNECT Edition FastTrack Services. It is intended to help organizations gain a preliminary understanding of MicroStation CONNECT Edition and its Workspaces, and to plan the required tasks for upgrading.

PLAY TYPE

CE Fast Track Services

OBJECTIVE

Delivery the timeline and tasks needed for a successful upgrade to CONNECT Edition, and understanding of the next steps to be taken

DIGITAL WORKFLOW

This is part of the Digital Roadmap to move to the CONNECT Edition

DEPENDENCIES

Availability of a representative from the client to coordinate the appropriate people

Purpose

For those users who have not upgraded to MicroStation CONNECT Edition, this Discovery Workshop provides an opportunity to discuss and review their MicroStation environment with a Bentley Consultant.

A Bentley Consultant will work remotely to evaluate and configure a preliminary MicroStation CONNECT Edition Workspace, discuss considerations of upgrading to CONNECT Edition and review Workspace differences.

Scope

This virtual Discovery Workshop includes the following tasks:

- Assess current Workspace and customizations
- Set-up user Workspace
- Review of Workspace, standards configuration
- Discuss considerations and impacts of upgrading to CONNECT Edition (i.e. new features)
- Review workspace differences – V8i to CONNECT Edition
- Configure initial CONNECT Edition Workspace. No customizations included
- Deploy and Review
- Discuss additional upgrade tasks
