

ProjectWise[®]

CONNECT Edition

Upgrading to ProjectWise CONNECT Edition

FREQUENTLY

ASKED QUESTIONS

ProjectWise®

CONNECT Edition

FREQUENTLY ASKED QUESTIONS

Q. What are the key differences between CONNECT Edition and older versions of ProjectWise?

A. Some major differences between CONNECT Edition and earlier versions are that:

- CONNECT Edition includes valuable cloud services integrated with ProjectWise, such as Deliverables Management, Share, Issue Resolution, and Performance Dashboards.
- CONNECT Edition gives you the option of moving your ProjectWise system to a robust cloud-hosted environment, managed by Bentley's ProjectWise system administration experts.
- CONNECT Edition has a new consumption-based licensing model which allows you to only pay for what you use, and eliminates server software maintenance fees. This model allows you to deploy additional productivity-enhancing ProjectWise servers—such as caching servers and ICS for PDF servers—at no additional cost.

CONNECT Edition

FREQUENTLY ASKED QUESTIONS

Q. Does upgrading to ProjectWise CONNECT Edition require that I host my data in the cloud?

A. No. There are many advantages to cloud-hosting, but it is not required. CONNECT Edition has many other benefits including cloud services which enable you to reduce costs by eliminating stand-alone third-party applications and digitize project workflows for improved collaboration.

FREQUENTLY ASKED QUESTIONS

Q. What are the advantages of cloud-hosting ProjectWise?

A. Some of the many reasons for hosting your ProjectWise system in the cloud include:

- Reducing on-premises IT infrastructure costs
- Having hosted server software upgrades implemented by Bentley
- Enjoying reliable system performance and unlimited data storage
- Leveraging ProjectWise management expertise and IT best practices
- Gaining disaster recovery protection
- Complying with specific industry and geographic security standards

CONNECT Edition

FREQUENTLY ASKED QUESTIONS

Q. If we want to move our ProjectWise system to the cloud, can we do it in phases?

A. Yes. You can implement a hybrid deployment—combining both on-premises and cloud environments.

Q. Can I use ProjectWise CONNECT Edition's cloud services if I have an on-premises or hybrid deployment?

A. Yes.

Q. Can caching servers be used with a cloud-hosted ProjectWise environment?

A. Yes. Also, ProjectWise CONNECT Edition includes unlimited caching server licenses.
