

# **ENTERPRISE LICENSE SUBSCRIPTION**

STRATEGIC SOFTWARE PROCUREMENT AND LEARNING PROGRAMS

The Enterprise License Subscription program (ELS) helps large, multi-office and global organizations gain significant operational and competitive advantage, reduce annual software costs, and enjoy unrestricted access to a comprehensive software and learning portfolio – all for a single annual fee.

"We are able to work concurrently on engineering projects across a vast office network over a thousand square miles while engaging hundreds of individuals."

"Projects are now easier to manage, update, share and service."

- Xcel Energy, USA

## WITH AN ELS YOUR TEAM CAN:

- Eliminate growing pains, streamline procurement, and gain access to the right tools at right time from a comprehensive portfolio of software.
- Reduce Bentley licensing costs through pay-per-use annual billing and enterprise license pooling.
- Provide every person with unlimited access to live Instructor-led training and remote OnDemand eLearning to create a more effective workforce, expand client services, and increase revenues.
- Boost project agility, maximize software utilization, and streamline site administration through industry-leading licensing server technology.

## **HOW WILL AN ELS BENEFIT YOUR TEAM?**

The ELS program delivers a number of benefits to each team member according to their role:

For **Senior Executives** motivated to reduce operational costs and improve service levels to clients, an ELS can lower software and training costs, while increasing the firm's competitive edge.

For **Project Directors** charged with improving quality and meeting deadlines; an ELS provides easy access to the right software and training, helping to deliver better projects on-time and on-budget.

For **IT + CAD Managers** tasked with coordinating and streamlining global IT systems, an ELS delivers innovative license server technology to streamline software procurement, speed deployment and improve license administration.

These benefits are provided to ELS subscribers as an addition to the offerings already available through the SELECT subscription program which include: flexible licensing options, assisted support, and anytime software upgrades.

## **ABOUT BENTLEY**

Bentley Systems, Incorporated is the global leader dedicated to providing comprehensive software solutions for sustaining infrastructure. Architects, engineers, constructors, and owner-operators are indispensable in improving our world and our quality of life; the company's mission is to improve the performance of their projects and of the assets they design, build, and operate. Bentley sustains the infrastructure professions by helping to leverage information technology, learning, best practices, and global collaboration and by promoting careers devoted to this crucial work.

This simplification of licensing helps us focus on our core activities in the knowledge that our software licensing requirements are being met."

- Cross London Rail Links Ltd., UK

#### WHAT'S IN IT FOR OUR TEAM?

The Enterprise License Subscription delivers a number of benefits to each team member according to their role.

Find the role most like yours and learn how the various offerings will benefit your team.		Senior	Project	IT/CAD
		Executives	Directors	Managers
Comprehensive	Provides unlimited access to ~200 software products for GIS, design, analysis & collaboration.	Increase	Access Right Tools	Increase
Software Portfolio		Competitive Edge	at the Right Time	Agility
Enterprise License	Enables distributed teams to balance software supply and demand across offices.	Reduce	Reduce	Streamline
Consolidation		Operational Costs	Project Costs	Supply & Demand
Bentley LEARN Training Subscription	Delivers thousands of hours of live, Instructor-led Distance Learning and self-paced OnDemand eLearning.	Increase Competitive Edge	Improve Project Quality	Streamline Learning Process
Simplified	Helps large firms overcome obstacles, increase agility and speed software acquisition via licensing server technology.	Improve Client	Avoid	Speed Software
Procurement		Service Levels	Project Delays	Acquisition
Predictable	Liberates budget from uncertainty and enables finances to be used most effectively.	Manage Budgets	Manage Budgets	Manage Budgets
Costs		Effectively	Effectively	Effectively
Pay-per-use	Allows organizations to pay only for the software actually used.	Reduce Capital	Avoid Project	Reduce Under-used
Annual Billing		Expense	Overspend	Investments
Software Usage	Aligns software spending with project costs and revenue; improves reliability of accounting.	Align Costs	Align Costs with	Understand
Insight		with Revenue	Project Budgets	Software Needs
Easy Software	Streamlines license access to improve and extend software evaluation experience.	Increase	Improve	Streamline
Evaluation		Competitive Edge	Project Quality	Learning Process
Central	Eliminates redundant site administration by managing all Bentley processes centrally.	Reduce	Avoid Project	Reduce Risk of
Administration		Operational Costs	Disruption	Noncompliance
Hardware	Provides enterprise-wide license server to reduce burden on IT support across offices.	Lower	Lower	Promote Efficient
Consolidation		Hardware Costs	Project Costs	IT Administration

"Through this program, our multi-discipline teams will have access to the advanced software they need to produce engineering designs of the highest quality, and to effectively collaborate among themselves and the many other parties involved in today's projects."

— China HuanΩiu Contracting & Engineering Corp, China
