Useful tips for writing your entry

GOOD SUBMISSIONS: MEET THE REQUIREMENTS

The nomination process for the Year in Infrastructure Awards sets you up for success. If you follow the steps and answer the questions thoughtfully, you’re already on your way to a nomination.

Complete the online application form

Upload three high resolution images
Best resolution: 7200x4800 pixels (or 24x18 inch at 300 dpi)
Minimum requirement: 3600x2700 pixels (or 24x18 inch at 150 dpi)

Submit your project before the deadline

BETTER SUBMISSIONS: A LITTLE SOMETHING EXTRA

To achieve finalist status, your submission will need a little something extra. Try these tips to showcase your project in a new light.

Don’t sell your project short
Provide detailed descriptions that include the project’s scope, the goals, and the methods used.

Describe how you used Bentley software to accomplish your goals
Provide specific answers. For example, don’t just say that something helped you to increase ROI; tell the jurors how it helped increase ROI.

Include other visual and auditory aids
These could include videos, narrated walkthroughs, or other media that help the judges understand and visualize your project better.

BEST SUBMISSIONS: ABOVE AND BEYOND!

If winning is what you’re after, there is still more that you can do to make your project stand out.

Tell the jury why your project is unique and innovative
Explain what makes your project apart in terms of innovation and advancements.

Provide quantifiable, measurable, numeric data
How much time did you save? What is your estimated ROI? What was the percentage reduction of costs? How does it benefit the industry or society at large?
